Making a Necessity of Virtue: Aristotle and Kant on Virtue Nancy Sherman

This book is the first to offer a detailed analysis of Aristotelian and Kantian ethics together, in a way that remains faithful to the texts and responsive to debates in contemporary ethics. Recent moral philosophy has seen a revival of interest in the concept of virtue, and with it a reassessment of the role of virtue in the work of Aristotle and Kant. This book brings that re-assessment to a new level of sophistication. Nancy Sherman argues that Kant preserves a notion of virtue in his moral theory that bears recognisable traces of the Aristotelian and Stoic traditions, and that his complex anthropology of morals brings him into surprising alliance with Aristotle. She develops her argument through close readings of major texts by both Aristotle and Kant, illustrating points of congruence and contrast.
