Tempest, Claire, and Leona: triplets blessed—or cursed—with a special extra sense they would each deny, given the chance . . .

Tempest was born with the uncanny ability to learn everything about an object—or even a person—just by the touch of her naked hands. But she knows this gift comes at a price, so she protects herself by keeping those she loves at a distance. But when a sinister enemy threatens all that she holds dear, Tempest is forced to reach out to Marcus Greystone, who she once touched willingly . . . and with passionate abandon.

Marcus has never forgotten the sensuous night he and Tempest shared—before she left his bed without a word. Now that she needs his help, Marcus isn't letting her go easily. It's his chance to show Tempest that *his* touch can also electrify. But a gathering storm of violence is following Tempest, and a killer waits to get his hands on her . . .
