Lady of the Beasts: Poems

Robin Morgan

Lady of the Beasts: Poems Robin Morgan

Robin Morgan's second collection of poems is a rich tapestry of female experience, both literal and mythic

Daughter, wife, mother, lover, artist, and even priestess are all here in shorter lyrics that cluster around four subjects: blood ties, activism and art, love between women, and archetypes. But Morgan surpasses the political grief and rage she delineated in *Monster*, her acclaimed first book of poems—especially in the four major metaphysical poems here: “The City of God,” balancing grace and despair; “Easter Island,” on the ironies of transcendence in embattled love; “The Network of the Imaginary Mother,” which became a virtual anthem of the women’s movement; and “Voices from Six Tapestries,” inspired by the famous *Lady and the Unicorn* weavings that hang in the Musée de Cluny in Paris.

Themes of familial love and hurt, mortality, survival, and transformation inform the poems collected here as the author weaves a wise and powerful self into being. *Lady of the Beasts* is Robin Morgan at her most lyrical yet.
