Monitoring, Security, and Rescue Techniques in Multiagent Systems: 28 (Advances in Intelligent and Soft Computing) Barbara Dunin-Keplicz, Andrzej Jankowski, Marcin Szczuka
In today's society the issue of security has become a crucial one. The use of knowledge-based technology in security applications emerges with important applications in monitoring, control, crisis, and rescue management. This volume contains extended and improved versions of selected contributions presented at the International Workshop 'Monitoring, Security and Rescue Techniques in Multiagent Systems' (MSRAS)

2004) held in Plock, Poland, June 7-9, 2004, bringing together the world's leading researchers in the field.

#### From reader reviews:

#### **Travis Ralls:**

With other case, little men and women like to read book Monitoring, Security, and Rescue Techniques in Multiagent Systems: 28 (Advances in Intelligent and Soft Computing). You can choose the best book if you like reading a book. Provided that we know about how is important some sort of book Monitoring, Security, and Rescue Techniques in Multiagent Systems: 28 (Advances in Intelligent and Soft Computing). You can add expertise and of course you can around the world by the book. Absolutely right, mainly because from book you can know everything! From your country until eventually foreign or abroad you can be known. About simple point until wonderful thing you may know that. In this era, we could open a book or perhaps searching by internet system. It is called e-book. You can utilize it when you feel bored to go to the library. Let's go through.

#### **David Boggs:**

Are you kind of stressful person, only have 10 or maybe 15 minute in your morning to upgrading your mind skill or thinking skill perhaps analytical thinking? Then you are having problem with the book as compared to can satisfy your limited time to read it because this all time you only find reserve that need more time to be learn. Monitoring, Security, and Rescue Techniques in Multiagent Systems: 28 (Advances in Intelligent and Soft Computing) can be your answer since it can be read by anyone who have those short spare time problems.

#### **Lloyd North:**

Reading a book to get new life style in this 12 months; every people loves to go through a book. When you study a book you can get a lot of benefit. When you read guides, you can improve your knowledge, because book has a lot of information onto it. The information that you will get depend on what sorts of book that you have read. If you wish to get information about your research, you can read education books, but if you act like you want to entertain yourself read a fiction books, these kinds of us novel, comics, along with soon. The Monitoring, Security, and Rescue Techniques in Multiagent Systems: 28 (Advances in Intelligent and Soft Computing) provide you with new experience in looking at a book.

#### Francisco Morgan:

As a university student exactly feel bored to reading. If their teacher inquired them to go to the library or make summary for some guide, they are complained. Just tiny students that has reading's internal or real their leisure activity. They just do what the educator want, like asked to the library. They go to presently there but nothing reading really. Any students feel that reading is not important, boring in addition to can't see colorful photographs on there. Yeah, it is to become complicated. Book is very important for you. As we know that on this period, many ways to get whatever we would like. Likewise word says, many ways to reach

Chinese's country. Therefore, this Monitoring, Security, and Rescue Techniques in Multiagent Systems: 28 (Advances in Intelligent and Soft Computing) can make you feel more interested to read.
