La Luna (Italian Edition)

Jakob Lorber

La Luna (Italian Edition) Jakob Lorber

Questa breve opera contiene la descrizione della vita esistente su questo satellite, la cui funzione principale è quella di raccogliere e distribuire il magnetismo terrestre.

Il Signore spiega dove c'è realmente la vita e cosa la renda possibile nonostante le elevate variazioni di temperatura.

Ci sono anche delle comunicazioni riguardanti l'influsso lunare e il conseguente effetto del sonnambulismo. La verità contenuta in queste straordinarie rivelazioni viene piano piano avvalorata dalla ricerca scientifica: è del 1998 la scoperta dell'acqua sulla Luna da parte della sonda americana Lunar Prospector: un ritardo di ben 150 anni rispetto alla comunicazione da parte di Dio a Lorber riguardo all'acqua dentro ai crateri lunari. La Luna viene spiegata non solo dal punto di vista puramente scientifico, ma anche e soprattutto da quello spirituale: molte anime terrestri, infatti, dopo la morte del corpo vengono confinate su questo satellite, in quanto è propria ad esso la funzione di "Istituto di Correzione Spirituale".

In particolare le anime materialiste vengono confinate sulla parte visibile rivolta verso la Terra, mentre quelle che davano eccessiva importanza alla donna come oggetto di desiderio vengono incarnate nei corpi dei seleniti, esseri che vivono sulla faccia opposta.
