For many contemporary observers and analysts, Morocco remains a mystery. So close to Europe, Morocco simultaneously represents a similarly open political culture and its complete antithesis: Human rights associations openly challenge authoritarian rule, while an emphasis on Moroccan singularity and authenticity prevents the establishment of a real democracy. Widespread poverty and illiteracy co-exist with a flourishing entrepreneurial class and the display of conspicuous wealth in its cities; electoral institutions and political parties pay allegiance to a traditional monarch; disgruntled youth and inhabitants of shantytowns are receptive to the rhetoric of Islamic inspired violence and terror.

This book provides an introductory overview of contemporary politics and international relations in Morocco, and gives an up to date assessment of the economy and recent history. Drawing on key academic texts, the author provides a detailed analysis of Morocco, focusing on issues such as:

- Morocco's role within the region
- trade policies with Europe
- Morocco's Western Sahara policy
- ways of dealing with Political Islam
- the extent to which European influence has affected Moroccan society.

Easily accessible to non-specialists, practitioners, and upper level undergraduate students, the book will be essential reading for those working in the fields of Comparative Politics, International Relations and Middle East Studies.
