Shelley (Longman Critical Readers)

Michael O'Neill

Shelley (Longman Critical Readers) Michael O'Neill

Attacked by T.S. Eliot and F.R. Leavis, Shelley's poetry has, over the last few decades, enjoyed a revival of critical interest. His radical politics and arrestingly original poetic strategies have been studied from a variety of perspectives - formalist, deconstructionist, new historicist, feminist and others. Of all the Romantics, Shelly has benefited most from the so-called 'theoretical revolution', as is borne out by the wide range of recent critical work represented in this volume. The 134 essays selected analyse many of Shelley's finest poems, including *Alastor*, *Julian and Maddalo*, *Prometheus Unbound*, *Adonais* and *The Triumph of Life*. Michael O'Neill's informed Introduction explores the contours of this debate. Detailed headnotes to the individual essays, explanations of difficult terms, and a further reading section provide invaluable guides to the reader. This collection illuminates the enduring and contemporary significance of the work of a major poet.
