**Calderón virtual. (Anuario calderoniano nº 5) (Spanish Edition)** Juan Luis Suárez (coord.).

El presente volumen presenta un nuevo enfoque de la investigación estadounidense y canadiense: la aplicación de conceptos de una realidad virtual a la obra de Calderón. La idea de base que une las varias aportaciones es que unas paradigmas centrales de la cultura barroca del siglo XVII -la vida como sueño, la complejidad e interrelación sociocultural etc.- reaparecen, aunque sea de forma modificada, en la sociedad de la información del siglo XXI. Dentro de esa margen general destacan aportaciones específicas que desarrollan una propia teoría de la virtualidad calderoniana (Juan Luis Suárez) o unifican las percepciones culturales de ambas épocas por teorías neurocientíficas (Margaret Greer).
