Legitimate Applications of Peer-to-Peer Networks

Dinesh C. Verma

Legitimate Applications of Peer-to-Peer Networks Dinesh C. Verma

- The book examines the different legitimate applications used over a peer-to-peer network (p2p)
- The material examines the design and development of novel applications designed to leverage the distributed nature of peer-to-peer environments
- Goes beyond the most popular application of file-sharing (including sharing of video and audio files) and discusses the many different applications
- Compares traditional and peer-to-peer infrastructure and discusses merits and demerits of each approach from a business perspective
