Los test gráficos en el psicodiagnóstico (Psicología) (Spanish Edition) Teresa Pont Amenos

Los test gráficos en el psicodiagnóstico es un libro especializado en la interpretación psicológica de los dibujos que se apoya en una profunda fundamentación teórica y clínica. Los test gráficos que la autora expone, de forma muy didáctica y con numerosos ejemplos ilustrativos recopilados de su práctica profesional, están considerados los más populares y representativos en el ámbito del psicodiagnóstico.

Por ello, se trata de una obra especialmente dirigida a estudiantes de Psicología, a psicólogos interesados en profundizar en la exploración psicológica, y a los profesionales que en su práctica clínica o formativa requieran tener un mayor conocimiento de la persona, con instrumentos de evaluación específicos como son los test gráficos.
