Forestry Pesticide Aerial Spraying: Spray Droplet Generation, Dispersion, and Deposition (Environmental Science and Technology Library) J.J. Picot, D.D. Kristmanson

Introduced to the technical aspects of forestry aerial spraying in the mid-1970's, we were immediately impressed by the complexity of the process of delivering pesticide to foliage. At that time, there was a vigorous public debate in New Brunswick about the ecological and public health impacts of the annual spray program for the control of defoliation of spruce and fir trees by the spruce budworm. The forest industry is important to the province and changes to the established procedures of budworm control could have major economic implications. A rational debate required reliable information about the mechanics of the spraying process. There was a need to supply missing information as to required pesticide application rates, atomizer performance, off-target drift and deposit, and the effects of weather and aircraft operating factors. We were invited to initiate a research program in this domain by New Brunswick forest management officials, and what follows in this book is a logical and quantitative description of the overall process based on our own research and that of others over the intervening years. After a short introduction to aerial spraying, we begin (Chapter 2) by describing forest stands in terms of their interaction with suspended atmospheric particulate material carried along by the wind and susceptible to deposition on foliage. We introduce foliage simulators and their use in measuring the deposit of sprayed pesticide on foliage, the "biological interface" between pest and pesticide.

From reader reviews:

Michael Jackson:

Do you have favorite book? For those who have, what is your favorite's book? Publication is very important thing for us to be aware of everything in the world. Each publication has different aim or maybe goal; it means that book has different type. Some people really feel enjoy to spend their the perfect time to read a book. They may be reading whatever they get because their hobby is definitely reading a book. Why not the person who don't like studying a book? Sometime, man feel need book when they found difficult problem or even exercise. Well, probably you will need this Forestry Pesticide Aerial Spraying: Spray Droplet Generation, Dispersion, and Deposition (Environmental Science and Technology Library).

Marie Nitta:

Reading a reserve tends to be new life style on this era globalization. With examining you can get a lot of information that can give you benefit in your life. With book everyone in this world can certainly share their idea. Textbooks can also inspire a lot of people. Many author can inspire their reader with their story or their experience. Not only situation that share in the ebooks. But also they write about advantage about something that you need case in point. How to get the good score toefl, or how to teach your kids, there are many kinds of book that you can get now. The authors in this world always try to improve their skill in writing, they also doing some exploration before they write on their book. One of them is this Forestry Pesticide Aerial Spraying: Spray Droplet Generation, Dispersion, and Deposition (Environmental Science and Technology Library).

Patricia Cockrell:

Reading a book to get new life style in this year; every people loves to learn a book. When you learn a book you can get a lots of benefit. When you read books, you can improve your knowledge, due to the fact book has a lot of information on it. The information that you will get depend on what sorts of book that you have read. If you would like get information about your research, you can read education books, but if you want to entertain yourself you are able to a fiction books, these us novel, comics, and soon. The Forestry Pesticide Aerial Spraying: Spray Droplet Generation, Dispersion, and Deposition (Environmental Science and Technology Library) provide you with new experience in reading through a book.

John Rivera:

Reading a publication make you to get more knowledge from it. You can take knowledge and information coming from a book. Book is written or printed or highlighted from each source that will filled update of news. In this modern era like right now, many ways to get information are available for a person. From media social similar to newspaper, magazines, science reserve, encyclopedia, reference book, book and comic. You can add your understanding by that book. Do you want to spend your spare time to spread out

your book? Or just looking for the Forestry Pesticide Aerial Spraying: Spray Droplet Generation, Dispersion, and Deposition (Environmental Science and Technology Library) when you necessary it?
