My name is Allegra, and this is the story of my last days on Earth...

Unlike my sparsely populated home, on Earth everything and everyone is plugged in. As a blacklisted model who needs to reboot my career, I can no longer resist the ultimate in virtual-reality networking: the omnipod. At first, altering the sights, sounds and scents around me seems harmless. Then I hear the voice.

Do not adjust your headset. You are in danger...

He says I must help him warn the public about the perils of the omnipod. I think he's just a hacker--until innocent people start dying, and the police want to hold me responsible. Now, I'm on the run in a stolen shuttle, trying to figure out why he needs me. And if I don't do as he says, he'll kill the woman I love.
