In time for the one year anniversary of the 2011 earthquake in Japan, a collection of essays and stories by Japanese writers on the devastating disaster, its aftermath, and the resolve of a people to rebuild.

On March 11, 2011, a massive earthquake occurred off the northeastern coast of Japan, triggering a 50-foot tsunami that crushed everything in its path—highways, airports, villages, trains, and buses—leaving death and destruction behind, and causing a major radiation leak from five nuclear plants. Here eighteen writers give us their trenchant observations and emotional responses to such a tragedy, in what is a fascinating, enigmatic and poignant collection.
