**Setting Requirements for USAF Maintenance Manpower: A Review of Methodology** Robert Kerchner, Carl J. Dahlman, David E. Thaler

This report outlines the findings of a study whose objective was twofold: first, to review the methodology that the Air Force uses to determine active duty enlisted manpower requirements in aircraft maintenance; and second, to investigate whether these requirements and their resulting authorizations have been underestimated. Toward this goal, the study assesses the Logistics Composite Model (LCOM), a statistical simulation model that the Air Force uses to gauge direct maintenance manhours, as well as the Air Force-wide regulations that establish ceilings on available hours
